PHIMPHIMAI BURANCHAI

Data Analyst | BI Analyst | Customer & Business Analytics
Bang Na, Bangkok | 098-482-4772 | Phimphimaiburanchai@gmail.com
Portfolio: phimphimaipim.vercel.app | GitHub: github.com/PIM-DATA

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience building data pipelines, automated reporting and customer analytics on Databricks (SQL, PySpark, Python). Turns GA4 and sales data into dashboards, customer segments and marketing audiences used daily by Marketing, Revenue and CRM teams, and traces data issues to their root cause across systems. Uses AI tools to automate recurring reports end-to-end. Background in social listening and consumer insight.

TECHNICAL SKILLS

Data Platform & Engineering: Databricks (Delta Lake, Jobs, Genie), SQL, PySpark, Python (pandas)

Analytics & Tracking: GA4, BigQuery, RFM segmentation, funnel & cohort analysis

BI & Reporting: Power BI (DAX), Looker Studio, automated reporting (Lark)

Data Quality: reconciliation across sources, validation checks, tracking audits

AI Tools: Claude (pair-programming for Python/SQL automation), ChatGPT

Other: Excel, social listening tools

PROFESSIONAL EXPERIENCE

7 DAYS SUCCESS CO., LTD. | Jun 2022 – Present

Data Analyst | Feb 2026 – Present

- Build and maintain the data layer on Databricks (SQL, PySpark): tables, scheduled jobs and dashboards in Power BI, Looker Studio and web.
- Automated hourly sales reporting with built-in completeness checks, so Marketing gets reliable numbers throughout each sales window.
- Reconcile GA4, BigQuery and sales data to find root causes of reporting gaps and tracking errors, and work with Dev and SEO to fix them at the source.
- Create customer analytics (RFM, segmentation, churn risk) that power dashboards, ad audiences, LINE broadcast lists and ad-hoc questions from Marketing, Revenue and CRM.
- Prepare recurring, privacy-safe data packages for external partners, with documentation and row-level validation.

Business Intelligence Developer | Sep 2025 – Jan 2026

- Designed Power BI dashboards, prepared multi-source data for reporting, and reduced weekly report preparation time by approximately 40%.
- Created data quality checks to reduce reporting errors before presentation.

Monitoring & Social Insight Specialist | Jun 2022 – Sep 2025

- Analyzed social media data through social listening to identify trends, sentiment, and emerging brand issues.
- Prepared insight reports for marketing and communication teams.

IDA INTELLIGENT DATA ANALYTICS CO., LTD. | 2020 – 2022

Social Intelligence Service Officer

- Collected and analyzed multi-channel online data for corporate clients.
- Monitored issues that could develop into crises, assessed potential impact on brand reputation, and summarized key developments.
- Prepared crisis monitoring and insight reports to support timely client response and decision-making.

SELECTED PROJECTS

Customer Analytics & RFM Segmentation — Prepared customer profile datasets covering RFM, AOV, basket size, purchase frequency, customer segments, and repeat-purchase behavior.

Lottery Analytics — Prepared and validated datasets for customer, order, purchase-round, lottery-checking, and prize analysis for dashboards and ad-hoc reporting.

Interactive Dashboard Rebuilds — Four production Power BI / Looker Studio reports rebuilt for the web with synthetic data: phimphimaipim.vercel.app/#/dashboard
